# Danube Peace Boat

## Traveling, Source for Cultural Discovery

**Cultivate New Generation** ready to combine Tolerance, Knowledge and Skill about Cultural, Historical, Traditional and Environmental Heritage in Different Media outcomes with content same good for motivation, wakeup vocation, education and traveling workshop presentation.

Every day will be “Learning Time” short lessons about different elements of media language:

- Photo-tool for expression,
- Psychology of photo,
- Meaning of sound,
- How to exchange information
- What is Codex of journalism and
- How to Produce Traveling Diary!

**During the Workshop**, the participants will have support (information, brainstorming, education and training) to recognize, invent and create different media together, a sort of traveling diary about their experience! They will start with storytelling and synopsis and will continue with scenario and storyboard... our educator and trainer will help them in finalization of their projects, production, postproduction and final presentation (of-line and on-line) of their different media outcomes: short films and animations, TV and Radio reports, photo-drawing galleries and slide-shows and textual reports.

# Danube Peace Boat

## Traveling, Source for Cultural Discovery

**Travel, Source for Cultural Discovery** is creative interaction of people from different cultural backgrounds willing to learn how to use truthful media languages appropriately in a way that demonstrates knowledge and understanding of different cultures. Our workshop is beginning of the Creation of the Coalition for Social Responsible Cohesion. We will continue to building strong intercultural and interfaith models for communication and cooperation for Sustainable Living, Intercultural Dialogue and Interfaith Understanding.

**Additional activities** during the workshop will be:

- The Teambuilding training/games!
- Basic elements of the Urban Pedagogy with Treasure hunting.
- How to work and cooperate successful in the Team!
- Teach, Learn and Love It!
- Unleash the Creative Genius and
- Intelligent Leadership – how to bring out the Best in Yourself and Others, Self-Learning Strategies - how to Becoming an Autonomous Learner-Prosumer and how to produce and share Media Literacy for Digital Didactic outcome

**Our Project offer** a more collaborative, interactive, and mobile learning experience with necessary skills and knowledge for using online collaborative learning platform that constantly evolves, and keep everyone engaged like never before. That's what the Workshop is all about.

**Helping to all interested** participants to create Intercultural Classrooms in any place, open space and during the traveling that open more possibilities to more students, teachers and young workers wherever they are. Offering exciting new approaches to learning, promoting and advertising while involving each participant on an individual level. With online collaborative

learning platforms like these, we can build a better educational experience that will get everyone talking.

### Summary:

In the Danube Peace Boat Network we want to mix the role of Teenagers (13-19 years) and empower them in terms of digital content production and usage. Nowadays, teenagers leaving in digital environment and they are not simply producers of digital content not mere consumers of it. They have to become “prosumers” (producers and consumers) and it have to be in this way that we should approach them through our innovative network.

The Danube Peace Boat Network is aiming to become an advanced educational grass root model for all teenagers around the globe. It aspires to become a breakthrough in terms of digital content, techniques in digital literacy aspects, make spreading of knowledge and knowhow easier and available for everyone.

Danube online platform will be the basic tool in our project. The Platform will offer step by step all practical and production elements for a systematic educational instructions for the process of imagination, creation and all other action undertaken by youngsters during their work in production of the digital didactic products.

Danube Platform will be based on the new online tools and applications will be focal point and reference for all participants and users ready to use digital technology with goal to inform everybody about new methodology of learning, new policy and trends in education and creating of interactivity between teachers and students in digital educational partnership.

The Danube Peace Boat Network will work ideally as a non-typical network consisted by a n international group of digital and educational experts and professionals, teenagers and their

partners skilled to support youngsters to create content in full relationship with curriculum. This educational partnership with high level of collaborative exchange of knowledge and skills will produce new didactic tools and create model of digital pedagogy.

In the Danube Educational Network we want to mix the role of Teenagers (13-19 years) and empower them in terms of digital content production and usage. Nowadays, teenagers leaving in digital environment and they are not simply producers of digital content not mere consumers of it. They have to become “prosumers” (producers and consumers) and it have to be in this way that we should approach them through our innovative network.

The Danube Educational Network is aiming to become an advanced educational grass root model for all in Danube Region and wider. It aspires to become a breakthrough in terms of digital content, techniques in digital literacy aspects, make spreading of knowledge and knowhow easier and available for everyone.

Danube Peace Boat online platform will be the basic tool in our project. The Platform will offer step by step all practical and production elements for a systematic educational instructions for the process of imagination, creation and all other action undertaken by youngsters during their work in production of the digital didactic products.

Danube Platform will be based on the new online tools and applications will be focal point and reference for all participants and users ready to use digital technology with goal to inform everybody about new methodology of learning, new policy and trends in education and creating of interactivity between teachers and students in digital educational partnership.

### **Danube Platform will be main tool, meeting point, space and place for:**

- Coordination, communication and management of the Project will be easy approachable, transparent, user friendly application for discussion, decision and delivery of responsibility during the preparation, implementation and evaluation of the Project (necessary to login);
- All outcomes collection, library and archive with all digital educational outcomes, participants and registered user (necessary to login) will be on the “online school” part of the Platform;
- For all interested guests and visitors Platform will create special space “Exhibition Wall”, with great design dedicated to young visitors, user friendly and with intuitive applications. For this part of Platform login will be not necessary.

The Danube Peace Boat 2016-2020 Digital Educational Network will work ideally as a non-typical network consisted by an international group of digital and educational experts and professionals, teenagers and their teachers, educators and new ICT practitioners who will setup high standards of the Platform, learning, digital producing and evaluating strategies.
